Interests

Data Structures and Algorithms

Web Development

Projects

Prompter

[GitHub](#) | [Live](#)

- Developed a Next.js application allowing users to create, share, edit, and delete prompts for AI as part of prompt engineering.
- Implemented a MongoDB database to store and retrieve prompt data efficiently.
- Integrated Google authentication using NextAuth for secure user authentication and authorization.
- Tools & Technologies used:** *NextJS, MongoDB, NextAuth, TailwindCSS*

URL-Shortener

[GitHub](#) | [Live](#)

- Developed a URL shortener service with an integrated JWT token-based authentication system.
- Utilized **EJS** for rendering dynamic views and adhered to the Model-View-Controller (MVC) architectural pattern.
- Implemented a MongoDB database to store and manage shortened URLs and user data.
- Tools & Technologies used:** *NodeJS, ExpressJS, MongoDB*

ATM Banking Solution

[GitHub](#)

- Built a desktop application simulating ATM and banking functionalities using Java Swing and AWT for the user interface.
- Incorporated features such as account management, transaction history, and balance inquiries.
- Tools & Technologies used:** *Java Swing, JDBC*

Experience

Analyze InfoTech

Lucknow, UP

Software Developer Intern

Jun 2020 - Aug 2020

- Developed a fully functional web application using HTML, CSS, and JavaScript, ensuring an intuitive user interface and meeting user requirements.
- Implemented back-end using PHP, leveraging WAMP server and MySQL database for data management.

Extracurricular Activities

• Training and Placement Cell-Coordinator (IET, Lucknow)

Jan 2023 - Present

- Handling Placement Drives: Conducting drives at the campus, from establishing contact with the companies to giving offer letters to students.
- Responsible for maintaining and managing the college's student placement database.
